Invacare® Uni-Recliners

Yes, you can.™

Invacare's line of recliners deliver outstanding value, durability and comfort in health care chairs and recliners. Our Deluxe Mobile Recumbent Chairs (MRC) provide essential ergonomic support and comfort in a recliner. The Mobile Treatment Chair (MTC) is especially suited for clinical needs. Regardless of your need, Invacare's extensive line of recliners are ideal for a range of long-term care and clinical seating applications. They're rugged, easy-to-clean and perform a variety of functions safely and effectively, making them an outstanding choice for you and your residents.

Full recline position.

Traditional Three-Position Recliner **NEW**

Model no. IH6074A

The IH6074A three-position recliner offers exceptional comfort and durability for day room or resident room environments. The full recline, leg-ottoman elevated and full upright positions provide maximum flexibility for residents. A convenient push bar on chair back and four rolling casters allow for easy movement. The two rear steering casters may be locked to secure chair in place.

Available Upholstery Colors

#61 Blueridge

#68 Jade

#60 Rosewood

FEATURES

- Footrests fold completely under chair, allowing the resident to rise to a standing position more easily
- Blow-molded side panels remove quickly, with press pins, for easy cleaning
- Convenient overlap tray included. Tabs allow tray to move freely
- Articulating headrest joins resident to social field of vision

Contoured seating surface and ergonomic lumbar support for backrest.

Articulating headrest.

Full recline position.

FEATURES

- 400 pound weight capacity on wide model, 250 pound weight capacity on adult, petite and drop-arm models
- Drop-arm model eases the transfer of resident from one surface to another
- Footrests fold completely under chair, allowing the resident to rise to a standing position more easily
- Blow-molded side panels remove quickly, with press pins, for easy cleaning
- Convenient overlap tray included (adult model only). Tabs allow tray to travel freely or lock in position
- Articulating headrest joins resident to social field of vision

Deluxe Three-Position Recliner

NEW

Model no. IH6065 (A, PT, WD, DA)

The IH6065 series deluxe three-position recliners are loaded with features and designed with resident ergonomics in mind. Special padding technology provides a long life of comfort and support for the seating surface. The back of the recliner features lumbar support for maximum comfort. Residents will appreciate the articulating headrest that comfortably supports the neck and head. The full-recline, leg-ottoman elevated and full upright positions provide maximum comfort for residents. A convenient push bar on chair back and four rolling casters allows for easy movement. Available in three sizes (adult, petite and wide) and a special drop-arm version, provides a variety to fit every resident. The rear locking casters and front swivel casters make this recliner easy to move and position. The two rear steering casters may be locked to secure chair in place. An overlap tray stores on the side and folds out of the way (adult model only).

Clinical Recliner

NEW

Model no. IH6077A

The IH6077A clinical recliners are an ideal choice for use in dialysis, blood collection, same-day surgery, EKG, oncology, chemotherapy and respiratory care areas. The non-locking reclining mechanism and soft padding allows the resident to sit comfortably for prolonged periods of time in a full upright, flat or Trendelenberg position. The high-strength vinyl upholstery is easy to clean and impervious to fluids. Maneuverability is achieved through four swivel casters, and the rear casters lock in place to secure the chair.
